## FOREWORD

This study of communities, settlements, and neighborhood centers in the state has been made in response to numerous requests for the location of settlements little known except in their immediate vicinities. It is the only compilation of its kind that has been made to our knowledge. It is hoped that the summary of historical, orthographical, and other data at the back of this publication will prove interesting as well as valuable.

The data given in the several tabulations is as complete and free from error as could be obtained without field investigation for which funds were not available. The study was made by carefully listing all settlements, communities, and neighborhood centers from names given on the United States Geological Survey maps of New Hampshire; upon completion of this listing, questionnaires were sent to each town and city clerk throughout the state for verification. Considerable credit must be accorded these local officials for their sincere cooperation in making this inventory.

The Commission will be glad to receive any further information which will make this tabulation more nearly complete and accurate.

## SECTION I

### Alphabetical List of Communities, Settlements and Neighborhood Centers

As a result of this study, 1187 names of places have been compiled. In this amount are included the names of 224 towns, 11 cities, and 23 unincorporated places, leaving a total of 929 names of communities, settlements, and neighborhood centers.

Towns, cities, and unincorporated places have been included in this section to facilitate the user in finding a particular place name.

All names have been listed alphabetically, followed by the town and county in which they are located. In addition, the location of all county seats, selectmen's offices, post offices, railroad stations, or flag stops have been noted.

The following notations and abbreviations have been used in this section.

CS - Indicates the location of the county seat.

SO - Denotes the location of the selectmen's office.

RR - Signifies a railroad station or flag stop.

PO - Designates a United States post office or sub-station located in this settlement.

(Town name, not settlement). This notation is used to show that there is not a settlement with the same name as the town.

(Part). This notation has been used to designate a settlement lying partly in one town and partly in another.
